## Room and Board in Enhanced Family Care/Shared Living Homes

On an annual basis, the State of New Hampshire determines the amount of Room and Board, or Residential Fees that are required to be paid by individuals residing in Enhanced Family Care or Shared Living homes. This fee is determined by the monthly Social Security benefits amount received by individuals and is expected to be paid monthly by the individual or their Representative Payee directly to the agency providing the residential services (Northern Human Services). This monthly amount is then passed on directly to the Home Provider providing the support services in their home in the form of a monthly stipend.

The individual or Representative Payee will receive an invoice each month from Northern Human Services and payments will be due within 30 days of receipt, payable to\_\_\_\_\_\_\_.

Failure to pay Room and Board could jeopardize the individual's living situation and could result in collection actions and/or reporting of the Representative Payee to Social Security.

This monthly amount is to be used to provide room, board and basic life necessities for the individual as a full member of the home.

Note: In all cases "Reasonability Factors" apply. The home provider is expected to utilize the room and board portion of their stipend to provide for all of the basic needs of the individual within a reasonable standard. The home provider is not expected to pay for expensive or luxury items over and above what is necessary and reasonable for the safety, comfort and wellbeing of the individual.

## Expectations for what is covered by Room and Board include, but are not limited to the following:

- 1. Shelter, including all utilities and a private bedroom with locking door. a. The room must be set up as a bedroom with appropriate furnishings (minimum: bed with bed frame, dresser, closet or wardrobe) and window coverings.
- 2. Food and Beverages: three (3) balanced, nutritious meals a day, plus snacks and beverages. The provider will follow any nutritional guidelines set forth by the PCP or other professionals such as a dietitian or nutritionist, and as approved by the guardian if applicable.
